PROFESSIONAL SUMMARY

Artificial Intelligence Engineer and MS candidate at NJIT (3.8/4.0 GPA) with a B.Tech in C

EDUCATION

- Master of Science in Artificial Intelligence | New Jersey Institute of Technology (NJIT)
GPA: 3.8 / 4.0 | Sep 2025 - Dec 2026 | President, GWICS
Coursework: Machine Learning, Deep Learning, NLP, Graph Neural Networks, AI for Robotics
- Bachelor of Technology (Hons.) in CSE (AI & ML) | Manipal University, Jaipur
GPA: 8.14 / 10 | Aug 2021 - Jul 2025

TECHNICAL SKILLS

- Programming & Frameworks: Python, C++, PyTorch, TensorFlow, Scikit-Learn, OpenCV, PyTorch
- Generative AI & NLP: RAG, Sentence Transformers, FAISS, Vector Databases, Transformers,
- Robotics & Perception: ROS 2, Gazebo, YOLO, Segment Anything (SAM 2), 3D Gaussian Splatting
- Cloud & Infrastructure: Docker, PostgreSQL, SQL, Git/GitHub, Linux, REST API, FastAPI.

KEY PROJECTS

- ShadowTag (Deep Learning Image Watermarking): Trained convolutional autoencoder; achieve
- CareerLens (AI Career RAG Assistant): Built RAG vector retrieval system over 100 job des
- Autonomous Robotic Perception Pipeline: Built TurtleBot perception in Gazebo using ROS 2
- Real-Time Multi-Stage Vision Pipeline: Combined YOLO and SAM 2 across 1,500 annotated im
- Graph Neural Network Benchmarking: GraphSAGE node classification reaching 88.1% accuracy
- 3D Gaussian Splatting Navigation: Reconstructed 3D scenes from 150 Polycam images (29.8
